Agrément Certificate 09/4687 **Product Sheet 1** 

### **CMB BOARDS**

## MARMOX TILEBACKER BOARDS

This Certificate relates to Marmox Tilebacker Boards, a range of extruded polystyrene foam boards finished on both sides with a polymer-modified mortar facing, reinforced with a glassfibre mesh. The boards are for use as an intermediate substrate to ceramic and natural stone tiling for internal use on walls and floors.

### AGRÉMENT CERTIFICATION INCLUDES:

- factors relating to compliance with Building Regulations where applicable
- factors relating to additional non-regulatory information where applicable
- independently verified technical specification
- assessment criteria and technical investigations
- design considerations
- installation guidance
- regular surveillance of production
- formal three-yearly review.

## KEY FACTORS ASSESSED

Performance in fire — the boards are classified as Class '0' or 'low risk' in accordance with the national Building Regulations (see section 5).

Impact resistance — tiled boards will resist the effects of the normal impacts expected in-service (see section 6).

Floor loading — the boards are satisfactory for use in domestic and residential applications (see section 7).

Condensation risk — the use of the boards will reduce the risk of condensation (see section 9).

Durability — under normal conditions the boards will have a service life commensurate with the structure into which they are installed (see section 14).

The BBA has awarded this Agrément Certificate to the company named above for the products described herein. These products have been assessed by the BBA as being fit for their intended use provided they are installed, used and maintained as set out in this Certificate. n A Corper

On behalf of the British Board of Agrément

Date of First issue: 17 September 2009

Simon Wroe
